Dear Friends,

Some of you were asking questions on my family and I found no better way than to use our last Xmas card which you find attached.

In the center my wife Bridget and myself.

On the left top down my old Morgan, our daughter Cynthia and her youngest daughter Charlotte, our house in the Belgian Ardennes and Cedric's youngest Matthew who loves the Morgan.

Center bottom Cynthia's family : the oldest is already at the University in Paris.

On the right top down, Cedric (he was born in New York during my time at the Columbia Business School), his wife Laurence and their son Matthew in the Morgan, his three children ready for school in front of their house in London, finally our dachshund Fripouille.

Hope this gives you an idea of my close Family. Let's keep in touch, Jean
