- Professor **Susan Amussen** “is a social and cultural historian of Britain in the early modern period (roughly 1500 to 1750). She is particularly interested in the various hierarchies and structures of power that organize society. Her published work has focused on issues of class and gender, and race and slavery. Her most recent book, *Caribbean Exchanges: Slavery and the Transformation of English Society* looks at what English people had to learn to become slave-owners in the Caribbean, and what they brought back to England from the island colonies. They brought more than the sugar for which the islands were known; they also brought ideas about race and work, about the organization of work, and law and punishment. Professor Amussen's current work includes a synthetic essay on gender in the early modern Atlantic world, a project on England as a cultural crossroads in the early modern period, [and] an article on the relationship between history and literature; specifically, the historical contexts for Shakespeare. I saw my old friend **Karen MacGowan** (now goes by the name Anabelle) when visiting Paris a year ago, and enjoyed visiting with **Patsy Baudoin** while we were both in NYC. And of course, I always see my cousin **Ronald Grelsamer ('71)** when I'm in NY. I have two daughters (21 & 24) who are making there way in the world... C'est beau d'etre jeune!"

40-Year Class Reunion

● **Pierre Erville** wrote: "Salut tout le monde! Can you believe we're about to start 2012, the 40th year since our graduation? Some say it's the end of times -- well ... what a great excuse for a party! Let's have a *boum* to end all *boums*! Seriously folks, unless I've missed something, we have yet to have a reunion all our own. Long overdue, dontcha think? I'd love to help plan one, whether it's in New York, DC, or elsewhere. Anyone else game? I figure it would take at least 5 of us to form a planning committee to get this thing off the ground. Qu'en pensez-vous? I started a Facebook page "lycee 72" where we can start talking about it. Ciao for now!"

● "Walking into **Bambi Sloan's** Parisian apartment is like entering an exotic gypsy caravan. Wafts of incense float past ornate tassels and brass lamps, lending a heady, exotic fragrance to the warm autumn air. Gold braid shimmers richly on red velvet cushions. Shelves groan with collections of modern iconography. One almost expects a Madame Rosa figure to appear, swathed in embroidered robes and carrying a crystal ball. But it is a petite Frenchwoman clad in designer black who greets me, her hair casually twisted in an elegant chignon, her fingers clamping a cigarette....." ● **Michele Burger** wrote: "I have an MSW and work as a Policy/Constituent Aide for Councilmember Rosie Mendez who represents the East Village and the Lower East Side. I am on the Board of ParentJobNet. I am married and have a daughter in medical school and one in college."

● **Tanya Lowe** waxed *nostalgic* and wrote: "I started the at the Lycée at age eight, in 1961!"

● **Stefan Janis** wrote: "I am writing a little regional book which has to do with New England in the 17th century. I have not submitted a book proposal to a publisher yet. At the beginning of October I had a cameo in my father's documentary about his courage and the many medical ordeals he went through in his life. It has been purchased, so I am told, by 150 public television stations in different American cities. Also, my father is coming out with his autobiography in November, which happens to mention me briefly "Chopin and Beyond: My extraordinary life in music and the paranormal." I have tried to stay active with the local Alliance-Francaise in New Haven, CT, but they seem to have vanished from the area. I have joined a hiking group, which I have not taken advantage of merely enough. The concert season is starting up at the Yale Music School and I plan to go to a lot of concerts."

● **Hala (Tomeh) Ibrahim** wrote: "I came to work in Amman in September 1977 as a consultant to the Ministry of Social Affairs and started the first governmental centers for the mentally challenged. After several years, I then helped in starting the first center for psychological and educational services. During that time, I assisted many schools in starting learning support services for students with learning difficulties and did a lot of in-service teacher training. I also served as a consultant to UNESCO for the Middle East. This took me to many Arab countries to do training on Special Needs in the Regular Classroom. My third and hopefully last line of work started 12 years ago with children under the autism spectrum and I am still at it.

I think that my experience as a student at the Lycee and how students with difficulties were treated at the time had a significant effect on the career I chose.

I am married and have two children who are now in college. In May of 2004, while vacationing in Antigua for our son's high school graduation, I planned a reunion with my best friend from the Lycee, **Marie-Nancy Pascal**. It

was the first time we saw each other since we graduated in 1972. I once was walking in Harvard Square in the 1990's and recognized a classmate from the way she walked. Sure enough it was **Nina Schlossman**. I then met with her and **Patricia Boudoin** for a lunch. Those were the only times I had the chance of seeing someone from my school days.

Thanks to the Alumni, I was also able to contact **Catherine Flego, Valentina Goncharov and Carol-Ann Holzberger** by email. And the best was being able to find **Mlle Popa** who taught me Maths in Sieme and was the teacher who had the greatest influence on my life as a student.

Would love to hear from other alumni of 1972."

- **Stefan Janis** shared this with us: "My father has made a documentary about his life for American TV in which I may figure (if I don't end up on the cutting room floor.) I have also translated a little book for him about Chopin's life and performance style. Currently, I am working on a sample of a French novel featuring France in 1942 as seen through the eyes of a ten-year-old Jewish convert to catholicism. I also hope to finish my screenplay based on "La Chanson de Roland" in the near future. I do not seem to run into friends from the Lycée, but my circle of friends is ever-widening. I am still a bachelor, but not a confirmed one."

- **Marie-Francoise (Cararon) Le Gac** posted this update at *Copains D'avant.com*: "Après avoir obtenu mon bac à New York j'ai fait mes études à Nantes. - **Carol-Ann (Holzberger) Braun** sent this: "I'm very pleased to see that the Lycée has a web site, and glad to recognize some key names among those who are active within it and were my friends way back when. After the Lycée I went to the boonies in upstate NY, then on to Princeton where I majored in Art History and studied a great deal of Political Science. These two interests - and art-making - have followed me my whole life. After decades in New York and New York State, I now live in Paris with my husband Berti Braun (half-Peruvian) and our son Philip-Alejo.

I do what is called 'art comportemental', which means art-installations that have a subtle, hidden form of interactivity. I'm also setting up an augmented chat space for my neighborhood, which is very international, though poor :-) and in great need of new means for having its voice heard. To earn my living I teach. I would love to hear more from my class-mates and old friends! So please don't hesitate to send an e-mail, with a clear header including the word "lycée" so as to survive my spam filter."

I never forgot this lovely boy that walked into class one day (I think it was Galy's history class). I don't remember ever speaking to him or seeing him again but he left such an impression on me. Why? I don't know, I just never forgot that day. Strange isn't it!"

● **Hala (Tomeh) Ibrahim** wrote: "Nancy Pascal and I met for the first time since we graduated from the Lycee in 1972. My family and I went to celebrate our son's high school graduation in Antigua for one week. I wrote Nancy, who resides in Martinique, while I was in Jordan, not really expecting it to happen. But it did! She came with her husband, Marcel, during the weekend we were there. 32 years we have been writing to each other and we finally met. It was a happy reunion that happens in dreams, but we were fortunate that it was real. We talked so much trying to fit 32 years of things not said in our letters in two days. Best wishes to all who attempt to reunite."

● **Bambi Sloan** wrote: "Moved to Paris in 1972, translated english & american films & TV series (including the series The Avengers!) for french TV to pay my art and graphic studies. Long story, but I became a fashion PR for top designers and opened my own business 25 years ago. Fashion PR is my main business but have branched

out as an Interior designer and fashion consultant. Another long story but also owned and designed club in Notting Hill, London that we sold (very sadly) last year. I have a 19 year old son, Martin, and a 15 year old daughter, Billie Jeanne. Still see Sonia (Simon) who lives in LA, California and Patricia (Astric) who lives in Paris and works for Dior. Would be lovely to hear from you."

In Memoriam

● Bea Mezei-Rhodes ('73) sent us this sad news regarding [Gerard Crouzilhat, '72](#): "I was browsing through the different class years on the Lycée website and realized that you are always searching for alumni information. I

wanted to let you know that Gerard Crouzilhat, Class of 1972 passed away several years ago. I believe he died of a heart attack following complications with diabetes. Last I heard his mother was working at Bloomingdales in the city. That's all I know and wanted to pass it on."

● Patrice Claisse informed us that his wife **Valerie (Noel) Claisse, '72** passed away in October, 1995.

Since April 1994, I have been residing in Paris. I have developed a cultural tourism company French Links, which has hosted Tom Daschle, President Gerald Ford and Gov. Ann Richards, and since then have developed two others, British Links and European Jewish Tours. I have also published a series of illustrated art guides for Harry N. Abrams, Inc. "Little-Known Museums In and Around Paris, London, Berlin and Rome," as well as a book in French, and an electronic guide to shopping in Paris, "Best Buys to French Chic." While I am not married, I am happily in love with a Frenchman who happens to appreciate many aspects of American life and women. Now that's luck!»

● **Gerard Salomon** writes : « Very surprised that Promotion '72 is missing! May be with the help of the rest of my gang - Gerald Sampson or Arthur Kulick we could cover up that big blank. Hey guys have you lost your computers to write»
