Xaypladeth Choulamany ('75)

● **Xaypladeth Choulamany** (*LSY: 5eme in 1970*) is the Director General of the Planning and Cooperation Department at the Ministry of Agriculture and Forestry in Vientiane, Laos. After he left the LFNY, he graduated from the Lycée de Vientiane and then obtained a Master of Science in Agricultural Economics at the Academy of Agriculture, State of Bielorussia (former USSR). He sent us a detailed description of his career and achievements that can be viewed by clicking [HERE](#).

● **Debra Werblud** (*LSY: 10eme in 1965*) “is a multimedia, interdisciplinary visual artist. She made Venice her home years ago and from her Giudecca studio she makes ‘incursions’ into difficult themes in difficult times (politically, artistically, culturally, economically), always leaving a permanent mark on her audience and, more generally, on those coming into contact with her (professionally and personally). She is a sophisticated artist, and sophistication here should not imply difficulty in understanding her work. On the contrary, her work is strikingly clear, and it is this “transparency” that makes her so sophisticated and direct. Her work is deeply interwoven with reality, both social and political. Rather than a statement, it’s a permanent questioning..... Early studies in sculpture, archaeology, anthropology and environmental design as well as experience in participatory design also underpin Werblud’s collaborative work with artisans, scientists, scholars, poets, planners and architects. Each project is conceived as a vehicle for accessing the unfamiliar, for triggering then nurturing processes of interdependence.

School for Social Research in New York City. In 2001, Andrea became a Certified Kinesio Taping Instructor. Although she has spent many years in sub-acute and long term care, her clinical expertise is in manual therapy..... She is currently the Director of Physical Therapy at Spine Options, a pain management center in White Plains, NY..... She is also the President of SPINE SOLVERS INC., her own company which provides physical therapy services to individuals, injury prevention and workplace safety seminars to businesses, and Kinesio Taping seminars to health care professionals.”

- « Dans son potager, **Pierre Bonnardin** (*LSY: Terminale in 1975*) transmet les valeurs de l'écologie » Pierre is interviewed by LeProgrès.fr. (Click [HERE](#) to read the interview)

- **Colette Hyman** (*LSY: Terminale in 1975*) is a professor of history at Winona State University. In March, 2017 she wrote an article entitled "The U.S. needs a more just, humane response to refugee crisis" for the Wynona Daily News, which can be read by clicking [HERE](#).

- **Marco Maximilian Elser** (*LSY: 4eme in 1971*) shared this update with us:
 "Ciao to many friends. Even though I did not finish at LFNY (I obtained my Bac at Lycée Chateaubriand in Rome), I still have very fond memories of my seven years at LFNY!! Last year we had our wonderful *40 ans après reunion* which was a great success. I saw some friends with whom I had not spoken in decades! It was a real homecoming!

With regards to updates, I have been living in Rome for the last thirty plus years and love it.. Even though the city is chaotic, and nothing works properly, it still is in my humble view, the MOST amaaaazing city in the world. I still discover new historical facts on a daily basis.

I am married (for the second time) and with three children (24, 13 and 11), all of them continuing our family tradition of French education (am I masochistic or what?!?!). As I approach inexorably the big 6-0, I am looking to do as many things as I can: I am playing polo four times a week (from April to October) and ski a lot also. I just returned from a fabulous boys-only ski trip in Nishiko, Japan. I travel to NYC regularly and would love to see you... If you happen to be in Newport, RI next week, I will be playing the USA-Italy polo match on July 8th.”

Editor's note: Marco “was born in Rome of an American father and Italian mother, then moved to New York City, only to return to Rome about 32 years ago. He received a Degree in Economics from Harvard College in 1981. His professional experience includes being head of international market sales for Kinetix Measurements in New York, first vice president for Merrill Lynch Capital Markets in Rome and London, and head of international market and credit institutions sales for Northeast Securities in New York.....In 2015 he joined Lonsin Capital, a London-based investment banking boutique. Marco was the President of the Harvard Club of Italy until June 2014 and his passion in life is polo. He speaks English, Italian, French, and Spanish fluently..... He is married to Flaminia Cuturi.”

● **Pierre Cauvin** (*LSY: Terminale in 1975*) is the “Executive Chef of Cucina & Co. at Macy's. Growing up in the Basque region of France, [he] spent much of his time in or around the kitchen. His family owned an inn and restaurant where he learned by assisting both his uncle, who was the chef, and his aunt, who ran the front of the house. When he came of age, Cauvin moved to the U.S. to pursue a culinary career at La Crêpe, a restaurant group with which he travelled all over the country..... Cauvin's mother was French, his father, part Vietnamese. As a result, his cooking style is classic French with accents of Southeast Asia..... In the chef's spare time, he visits favorite Laotian and Vietnamese restaurants in downtown New York. Cauvin has worked for Patina Restaurant Group over the past twenty-five years, with stints everywhere from Brasserie to the U.S. Open. He is a self-proclaimed "gypsy" who loves to travel and has finally settled down.....” (<http://www.zoominfo.com/p/Pierre-Cauvin/1561994761>)

● **Elizabeth Estabrook** (*LSY: 8eme in 1967*) is a painting conservator at Amann & Estabrook Conservation Associates “a fine art conservation firm based in New York City that specializes in the treatment of modern and contemporary paintings and sculptures.”

● **Dr. Daniel Mart** (*LSY: 9eme in 1966*) “born in 1956, graduated from Brussels Free University in Brussels in 1982 after a curriculum that has lead him through Luxembourg, New York, Zurich and Brussels. From 1982 through 1985 he worked in emergency medicine for Europe-Assistance and as founding member of SOS-Médecins Brussels. In 1985 he set up his private practice in family medicine in Luxembourg-City. He joined the Luxembourg Medical Association (AMMD) as a board member in 1989 and is responsible for restructuring the nationwide medical emergency system (1992).....” (<http://www.tsf-org.org/?page=tsf-about-people&lang=en>)

- Professor **Colette Hyman** of Winona State University "received her bachelor's degree in American Civilization from Brown University before moving to Minnesota to attend the University of Minnesota to achieve her MA and PhD in history. Her teaching areas include U.S. History with specialties in the 20th century, women and the role of food in world history. [She] became a historian because of the first class in U.S. women's history that she took in the spring of her sophomore year of college. Her senior thesis was on women in charitable organizations in the Gilded Age and the Progressive Era. By the time Colette Hyman got to her master's thesis, she was fully in the Progressive Era, looking at the role of women in the massive strikes taking place in the first decades of the 20th century. For her doctoral dissertation, [she] stayed with the labor movement, but moved into the 1930s, a high-water mark for union activism and labor victories. This eventually developed into her first book, *Staging Strikes: Workers' Theatre and the American Labor Movement in the 1930s* (1997). Since this research had taken [her] to archives all across the country, and along the way she had acquired a job and a family, she wanted her next project to keep her closer to home. What started out as a project about women in Winona became, ten years later, a book about Dakota women in Minnesota, South Dakota, and Nebraska: *Dakota Women's Work: Creativity, Culture, & Exile* [.....]"

- **Baina Masquelier** reminisced about the Lycee and shared this with us: "I noticed a few years ago that quite a few students from 1975 had removed their names - as I had done with mine - from the original Lycee list that was online (the Lycee was not a happy time for many of us in the years leading to graduation in '75. This is probably why some of us chose to avoid contact and to remain incognito and distant). I also once saw on the Lycee site a picture of all the boys in terminale of '75 wearing skirts. I wish I could find it online but am having difficulties....That pic was supposed to circulate amongst us (students) only but it obviously travelled around! I believe I am the only one who shot the series (I used to print my own pics). There may have been someone else with a camera that day but I am not sure as to whether that person actually

TOP: Seth Lewis ('75);
BOTTOM: Marina Baudoin ('75)

shot anything (I vaguely remember the person being afraid to be caught shooting!).

As 'fun/funny' as the pic may appear to be, it was a celebration for the end of school and one also at a deeper level. We girls and female teachers were not allowed to wear trousers. In the cold and windy NYC winters, you can imagine that layers under a skirt did not help much. When we slipped on ice, we had nothing to protect our bums or thighs. Wearing tights didn't do the trick as the ice tore them when we fell down. Some of us had nasty bruises and abrasions (from slipping) which could have been prevented by wearing trousers. The wind also lifted our skirts up, exposing us, and I remember perverts following some of us home and verbally abusing us. In order to protect ourselves from the cold, bruises and the perverts, we had to get permission first for our female teachers to have the choice of wearing trousers. Once that permission was granted, we then asked permission for the female students. Yes, the Lycee was VERY strict!"

- Having seen Baina's message, above, **Nayl Driss** wrote: " In answer to **Baina** and to complete the vision of our generation at the lyc e, our class was an important part of the movement to allow pants for the girls, ever since our year in seconde, as well as colored tights. The winters of '73 to '75 were cold ones as I remember. The rules of the Lyc e were not very realistic as to the realities of the weather. The regulations had been very strict up to that point but we worked to make the administration understand that we had a word to say in our lives at the school. I do not know if things were made easier later, but we had a fairly tight group, at least at school. Remember that at that time some students were excluded for expressing their opinions or for not approving of the tough attitude of the administration. It was an important time of change.

The plan for the guys to wear skirts was an attempt to put into perspective the "necessity" of the uniform and was also our end-of-the-year joke. It originated as a bet between **Riadh Ladjimi** and myself to come in skirts on the next to last day. Why then? Because that was the last time we had our philosophy class with Mr Choquet. But then we decided it would be much more fun if we convinced all the others to join in the event, and after some discussion we all came to the idea that the guys would come in skirts and the girls in pants and ties.

Most of us met at an apartment a few blocks from the lyc e and walked all together from there, in order for the guys to find skirts their size --I think it may have been at **Cathy Treboux's** but I am not sure. Everyone from both classes made the switch, except **Pascal Agenet** whom we did not ask because of his medical condition and we did not want to impose on him. There may have been one or two other photographers who, I think, may have some pictures. The picture that Baina is referring to was put in the yearbook (1976) the next year by **Philippe Duleyrie** who decided to do another year of terminale.

Some of the younger kids made fun of us but we dared them to do it also and in the afternoon one or two of them did. Mme. Magaril accepted our joke-- she had to as we left her No option.

As a final note to all of this, you must also remember the couscous I had brought to the "after the bac party" that was held in **Marina Baudoin's** apartment a few days later.

Growing up times are not always necessarily happy times. We may pick up where we left off with some, but with others we may hesitate. All of us have changed and it is helpful to see how we have come through the years.

Our class group has had three big reunions, but I have not been able to attend for many reasons. I have kept in touch with some, and lost contact with others as I suppose we all have. After 20 years of marriage, I finally took my wife Linda, and my kids Ryan and Katie back to NY just to see where I grew up. Lots of nice memories as I walked in the park where we had *recreation!* What a great school. Nothing like it that I ever encountered since. I just retired from being Chief of Vascular Surgery at Miller School of Medicine, University of Miami. Prior to that I was in Los Angeles at USC and before that UCLA. My research continues though on stem cell angiogenesis. I earn my income by operating on the circulation (wherever blood goes). I passed my 15,000th case on 1/2008! For those of you that remember my brother **Omar ('75)**, he is in Boston MA and retired from a career in clinical and research oncology at MD Anderson in Houston to assume an executive position at Millenium Corporation. He is the clinical trial coordinator for new Oncology therapeutic agents there. He went to Harvard with another Lycee graduate, **Marco Elser ('75)**. I speak French with the Europeans and Hatians in Miami. Thanks to my French upbringing, Spanish was an easy second language, and VERY useful in Miami. I found French helpful overseas, especially when I was in West Africa. I remember all my classmates at the Lycee with fondness and admiration. What a special time that was!"

To this end, the purpose of the work is to heal the psychological /mental /+emotional constructs and patterns, or wounds, that live at all levels of our energetic being and, as such, diminish our general capacity and radiance, our congruence, our freedom to choose, our ability to be present both to ourselves and others, and our commitment to experience, develop and express our core-essence and gifts in the world. While trained classically, (M.A., M.S., L.M.S.W.), I continue to pursue post-graduate, research, exposure, training and certification in Energy Psychology (HBLU, TAT, EFT, etc.), Shamanism and Neurolinguistic programming. And, I also continue to both work with healers and use selective therapeutic-grade essential oils to support shifts with clients, (and, close friends), when appropriate and/or requested. Post Lycee was the following: Duke University, Columbia University, Pacifica Graduate Institute, Hunter College-City University of New York and many workshops and lectures. To this I also add growth through relationships, marriage and divorce, friends, meditation, travel, achievements, failures and/or disappointments, joy, frustration and the like. And, always, an appreciation of wholeness and a dedication to truth, freedom, regeneration and creativity.

Over the years I have held several administrative positions (in Community Planning, parent/youth/foster parent advocacy) and am currently the Director of Quality Assurance for all of foster care in NYC. My experience in child welfare has been extremely rewarding in that I have had the opportunity to meet and work alongside some of the most talented, passionate and hard working people in NYC. With this work comes the challenges of working very long hours, and the responsibility of trying to improve the lives of children and families involved with the child welfare system. If anyone is interested, my next move will probably be selling Margueritas (spelling??) on the beach; it's mindless, and seems relaxing. I have to find the right beach so if anyone has any ideas, please do share.

I have two lovely daughters, ages 29 and 25. My eldest, Aliane, is an actress and dancer living in Los Angeles. My youngest, Elodie, just finished her Masters degree at the London School of Economics and is currently working (one block away from me) at the NYC Housing Preservation and Development).

I have stayed in touch with a few people from the Lycee (**Catherine Treboux ('75)**, **Marina Baudoin ('75)**, **Nicholas Haimo ('76)**, **Patricia Karkoch ('75)**) and through the Lycee Reunion had the wonderful opportunity to meet up with many people I hadn't seen in a very long time. Unfortunately we have all lost touch again, but the post reunion attempts at staying in touch were fun while they lasted.

My biggest news at this time is my upcoming trip to Ghana. I will be working with a friend of mine who has an NGO focused on reproductive health. The organization also has an education and micro credit component. I am on the board of this organization and have been involved in some fund-raising events here in NYC. If anyone is ever interested in attending please send me your contact information. If anyone has travelled to this area (and Togo) please share the "must see" places I shouldn't miss.

Well that's my life in a nutshell. I am excited to read what everyone else is up to these days and if possible, try to get together again soon. Happy Holidays to all!"

Frileux de nature en ce qui concerne ce type de réunion, pour des raisons évidentes, je répondais oui, malgré une certaine réserve. De plus, cette réunion allait avoir lieu sur... Un bateau-mouche! Plus kitch, tu meurs. Bien m'y prit, car c'est avec grand plaisir que je retrouvais des potes, certains qui avaient été proches, d'autres moins, mais tous super sympas.

Un peu plus gris (ou même virant au blanc), un peu plus ronds (ah, ces déjeuners d'affaires) et un peu plus sages (ou peut-être que non), je revis ce 23 mai Hubert (et sa charmante épouse), **Andrea (Migliuolo)**, **Seth (Lewis)**, **Maurith (Orman)**, **Jean-Marc (Jacot)**, **Jérôme (Desforges)**, **Jean-Gilbert (Fabri)** et **Benoît (Cabanne)**.
