- **Dr. Georges Mesplou** studied chiropractic at the Franco-European Institute of Chiropractic in Paris and graduated in 1992. "Since then I have specialized in soft techniques. I have worked as a chiropractor since 1992 and came/moved to Holland in 1999. I grew up speaking French (was raised in the French language). My mother is from Switzerland, my father from France. In my youth, I lived in the US for a while. It was there that I was introduced to chiropractic. I was always impressed by how my father felt better after each treatment. After five years in the French Navy, I was searching for something more "humane" and began studying chiropractic. In the world of/field of chiropractic, there exist many different methods, wherein each chiropractor is unique in his/her treatment. My approach with what I learned is to only use what I feel will be the most effective. I am proud of the results which after 20 years still continue to develop/grow."

● **Druce Vertes** wrote: "I launched a startup social news aggregator for financial market news at <http://www.linkfest.com> , which finds the most popular news stories on the Web, as determined by how often they are shared on Twitter, social media, blogs and the Web, as well as user votes. It's at a proof of concept stage, and I'd love to hear any feedback!"

● Chris Brun ('71) shared this update on **Matthieu Rougé** with us: " [Le Père] Matthieu Rouge has now left his parish at Sainte Clotilde [in Paris] and is spending a year in Madrid. I'm not sharing this as a question of religion but because he is an exceptional individual contributing to the development of the church, a theology master, and a human being having great interest in emerging countries. I would not be surprised to see him at a higher level in the next few years. He is only 46 years old. Here's a little story: When my dad passed away, Matthieu allowed gospel singers at the ceremony rather than the more conventional sad and boring music. He had a doubt as to the justification and potential feedback but went ahead with it anyway. He admitted that it was a great idea afterwards, which is proof of his ouverture d'esprit. Let's keep track of him."

Although this audiobook offers no way to smell the scent, narrator **Liz de Nesnera's** native French transports listeners to the origin of the eponymous brand and the country in which Coco blossomed. De Nesnera's voice gives a delicacy to the story, a proper touch to a woman who began with few options and became one of the richest women of the twentieth century." (Click on link below to hear a

● **Liz de Nesnera** wrote: "As many of you know (as it was published two years ago in this newsletter!) I am the founder of CaregiversCommunity.com, a website dedicated to the proposition that Caregivers deserve to have a life beyond caregiving. (I've been a caregiver for 12+ years...and Maman just turned 90!!!) But, what I'm including today, is that beyond my caregiving duties, I decided to take my own advice and get back to one my other loves: Voice-Over! I have been involved in the voice recording industry for over 15 years, from being a Copywriter & Production Director at a Radio station to working in a Voice-recording studio, and now have been doing voice-over work for about the past 18 months on a consistent basis! I love getting in front of the mic and getting people's messages across...of course in English ET en Français! You can check out my voice-over website [by [clicking here](#)]. If any Lycée alum needs voice-work done (phone system, website, corporate narration...whatever!) give me a call or send me an email."

● **Liz de Nesnera** shared this touching update with us: "Well, I guess if there ever was a time for me to share, it's now. A lot changed for me in 2005. On May 24th, after 9 years (well – OK, technically a week shy of 9 years, but who's counting :-)) I got laid off from my job as Senior Project Manger and Sound Engineer. It was unexpected, but actually an amazing blessing. It allowed me to really fly towards my dreams!

August 1st, I officially started my new venture: [CaregiversCommunity.com](http://www.caregiverscommunity.com). I won't go into my whole caregiving story here (you can get all the details at: <http://www.caregiverscommunity.com/aboutus.html>) but I am the primary caregiver to my mom who had a hemorrhagic stroke 11 years ago and is now wheelchair bound. I also took care of my dad, who had Alzheimer's, until his death in 2003.

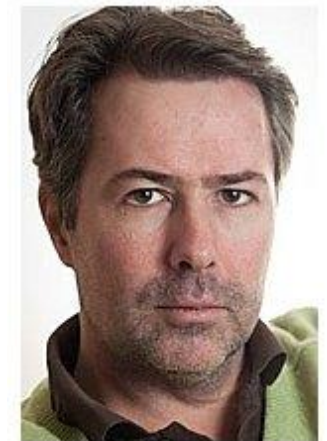

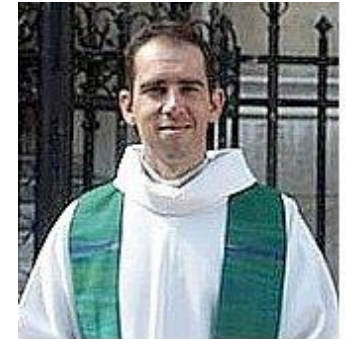

My mission in life right now is to get the word out to family caregivers on the importance of their taking time for themselves. I've gotten amazing support from caregivers (both family & "professional") and have been booked to speak at several caregivers events. You can see my upcoming Calendar of Events at: <http://www.caregiverscommunity.com/events.html>

I decided that as a caregiver for the past 11 years, it was time for me to take that experience and help other caregivers. To give caregivers permission to be more than just caregivers. To help them realize that having a life, having fun and having guilt-free joy is essential to their being an effective caregiver as well!

I was also accepted to be the Northern NJ volunteer representative for the National Family Caregivers Association's Caregiver Community Action Network (NFCA CCAN for short!). This has also allowed me to meet a great bunch of people who are working to get the word out on the important contributions caregivers are making. I have also been asked to be a member of the Board of the newly formed Caregivers of NJ.

<http://www.caregiverscommunity.com/cooltools.html>

Bref, if there are any LFNY'ers who are caregivers or who know of any one who could use some support, my website is a great place to start! It has been an exciting six months! All the best, Liz de Nesnera"

Before Dallas we lived in Annapolis, MD and most recently in Lancaster, PA where I started a pre-school French program for children ages 3-6. I am also in touch with Sabrina Birner '83 and we are actively discussing the possibility of a 20 year reunion...Last week at when I took our 3 year old daughter Julia to ballet, I had an incredible encounter...with a former LFNY student whose oldest daughter is also enrolled in ballet! The French woman who runs the ballet school introduced us, and we all started speaking French. At this point, Nathalie (Villa) Simon '82 looks at me and tells me how familiar I look. One question led to another, and we soon discovered that we both were at the Lycée in the same class for three years! Nathalie was in NY in 4ème, 3ème and 2nde. We quickly started reminiscing about friends and teachers and are thrilled to have found each other here in Dallas.
