● **Alessandra Gagliardi** (*LSY: Terminale in 1986*) wrote: “When not attending 31st high school reunions, Alex Gagliardi '86 promotes artists and non-profits tied to the arts. She helps find them funding, sets-up mailing lists, builds websites for them and organizes their social media, among other services. Last year, Alex and her business partner co-produced the Prayer for Peace concert at Carnegie Hall, featuring pieces from composers of different faiths; the event's proceeds went towards refugee relief. Alex serves on the Program Committee of the Princeton Club, and is a founding Board Member of the NY Arts & Sciences Salon, a group whose mission is to bring artists and scientist together for their mutual enrichment. Past events have included everything from a jazz clarinet concert by a neurobiologist to a lecture by a Nobel prize-winning scientist. Her main passion is Swing & Ballroom dancing, and Alex is a regular at dance floors across the city. As a hobby, she maintains an informal event listing for friends, designed to make sure everyone attending always see a welcoming face. After college I moved to Los Angeles and worked like so many in a production company, Eventually, I wanted to explore my Swedish roots and that made me to move back to Stockholm. I continued on the same path, starting an independent product placement agency for Swedish feature films and joining forces for cultural sponsorships.

Eight years later, I returned to the City of Angels, possibly for good this time, working with contract

administration at a studio. I have come to accept that my heart will remain split, one part in Stockholm and one part firmly planted in Los Angeles, my adoptive home town.

I initially joined SWEA [Swedish Women’s Educational Association], curious to meet new people, to connect with other women that share a common bond of growing up in Sweden and to experience familiar traditions and culture. Although a big transatlantic move can be exciting, it can also be daunting and lonely if you don’t know anyone at your destination. An organisation like SWEA can instill a comfort and familiarity, and I would like to give back and be able to share some of the experiences I have accumulated over the years relocating back forth.”

Nkossi is aware of the power of music, and his desire to communicate through it transcends borders. He belongs to a group of artists who understand that music is a wonderful way to convey ideas, feelings and passions. Music overwhelms him, devours him to the point where he manages to dominate it and shape it in such a way that we perceive it as a universal language.....”

- **Alexandra (Suy) Gobbi** wrote: "We recently relocated from the Dallas area to Atlanta, Georgia as I was offered a new position as VP of Marketing & Communications with PRGX. Life has been very hectic with new schools, a new role in a new industry, but we are enjoying it. Unfortunately we haven't been able to buy a house yet as we are waiting for our house to sell in Texas."

- "The dapper, well-groomed **Ewan Rellie** works in finance, but he's better known for his social presence and for his Brit designer wife, Lucy Sykes.

The son of a British diplomat, Rellie was raised in London and attended the right schools (Eton, Cambridge) before joining the investment bank Schrodgers. Stints in the Singapore and New York offices followed, and he remained with the company until 1996, when he went off on his own and co-founded Business Development Asia LLC, which assists American companies seeking to invest in Asia. It's not his banking career, though, that's made him something of a name in town—it's his ubiquity on the social circuit. If there's a society photographer in the house, you can count on Euan and his wife Lucy to jump in front of the flashbulbs. Euan and Lucy now have two sons, both of whose full names are insanely pretentious—Heathcliff Felix Alastair Euan Rellie was born in July 2003 and Titus Jasper Jake Icarus Rellie was born in March 2007. The Rellies live in the West Village....." (*cityfile.com*)

His wife Lucy Sykes is making some money designing chic children's clothes at newly affordable price points (www.lucysykes.com) and consulting at Ralph Lauren, which helps. Son Heathcliff (5) is at school at St. Luke's on Hudson St, and Titus (nearly 2) will soon begin at the West Village Nursery School. The family is happy, economizing in New York and Bridgehampton."

We have decided that we don't want to know the sex! But we're enjoying everyone's predictions. We began by referring to it as 'Peanut' but have now moved onto 'Mango' which seems more appropriate given Judy's size but may need to upgrade to 'Cantaloupe' soon."

I had not been there since I was 8, and decided to head on out there with my husband Chris and son Sebastian (born in February of 2003) to show them where the summer camp was where so many lycee students passed the lazy days of their youth. I also recently bumped into **Jean-Luc Pedanou ('87)** on the way to work in my neighborhood and came to find out that we have been neighbors (literally 2 blocks from one another) for the past two years! We dusted off the old LFNY 50th anniversary yearbook, recalled all the stories and drama moments which either involved philo or boys and couldn't believe how those times were so much less complicated than the real life of being married career women trying to juggle it all. Lastly, I got in touch with **Judith Hoenig ('86)** who you all know lost her mother a few weeks ago, to present my condolences. She let me know that she recently married over the summer and was happy that her mother was able to be present. Hope to be able to reconnect with many more of you!

● **Astrid Martheleur** writes: "Hello everyone! I can't tell you how great it was to read all of your updates. While much has happened over the years, I feel that all can be summed up in a very abridged paragraph: Since leaving the Lycee, my professional vocation has always been in fashion- specifically launching new designers to the domestic/international market. Currently, I am the VP of global sales and merchandising for Diane Von Furstenberg for the past 5 years. I recently moved to London for the company, where I met a wonderful (younger!) man. Perhaps this time a runaway-bride I will not be! I have no children-yet- but have 2 great dogs- one of which belonged to my brother Didier, who very tragically passed away in the summer of '97 at the age of 28. That having been said, times have certainly been tough. For the most part though, I feel very blessed with my life and look forward to more alumni updates!"

● **Hesham Elsafty** writes: “I am working for a Canadian bank (been with them for about ten years). They posted me to Egypt about 3 1/2 years ago. I got married in Sept. '99 to my wife, Mona. We had our first son, Hussein, in August 2000 and our second, Abdallah, in November 2001. We have our hands full. I really have not been in touch with a lot of people from the Lycée. I saw Marc Maschino several times in New York, Cairo and Canada. Our last meeting, however, was several years ago – same goes for Leslie Acackpo and Jean-Luc Pedanou. I used to visit the U.S. very frequently. My last trip, however, was in summer 2000 (it was the first time I visited the U.S. West Coast after living in North America for over 13 years!). On my next trip to the U.S., I shall make it a point to visit New York. I'll let you know and we should have a reunion!”

● **Marcy (Stitt) McLeod** writes : “Hey there! Marcy McLeod - formerly Marcy Brown, formerly formerly Marceline Stitt - here. Went to UCLA straight from the Lycée in 1986 and stayed in the City of Angels. Fell in love with my dreamboat in 1991, and made it legal in 1999. I teach 1st and 2nd grade in a Multi Age program at a charming school nestled in the Hollywood Hills called Wonderland Avenue Elementary School. I can't believe I can sum up so many years so succinctly. Anyway, I get pangs of nostalgia when I visit the Lycée page as a fly on the wall, so I decided to speak up finally. Does anyone know how to get in touch with Mr. Phillip Tedeschi, English teacher from years ago? Hope everyone is healthy and happy.”

● **Mboahangisoa (Rabetafika) Andrianoasy** writes: “I have been visiting your website over the past few months and I have to say that you have done a great job at getting so many of us together again virtually. A bit of news about me. I currently run my own business importing crafts from Madagascar (MADAME) while working as Managing Director for DMOC - a freelance firm in NYC's Village. I married about five years ago to Christian Andrianoasy, a fellow malagasy whom I actually met in NYC. I hyphenate my name sometimes to throw people off into an endless spelling bee... As to former classmates...the last time I saw Davide Traxler '86 I think I must have been 8 years old so you can imagine how overjoyed I was to read that he is doing well. Ironically I recently bumped into his old friend Lance Brown '86. Lance owns his own dermatology practice in NYC. I speak to the Vanderzypes once in a while (Laurent '86 and wife Gwen), but we have been too busy to actually find a mutually convenient time to get together. A final footnote: our thoughts and prayers go out to those who have lost loved ones this holiday season; my husband used to see clients practically everyday in those towers and ironically on 9/11 he was running five minutes late. We both view life quite differently since those attacks and hope that other people realize how precious it is.”

● **Judith (Mlockier) Audrain** kindly writes us: “I want to congratulate you on all the hard work that you are doing. I am extremely impressed by it and I realize that it must take a great amount of time to do the excellent job that you are doing. Whenever I read letters that you send or different info on the website it reminds me of the good old times” Judith lives in Forest Hills with her husband, Pierre. She is kept very busy between her family life (daughter, Mélanie, is now 16 months old!) and school. She is doing her Ph.D in Toxicology at St.

John's University (from where she also got her M.S. in 1997 in Pharmacology) and keeps in touch with Catherine Bégin. Judith and Pierre plan on taking a trip to France in the summer so that friends and family can meet baby Mélanie.
