I am a holistic nutrition counselor (www.alineways.be), and have a weekly column in La Libre, one of the two French language daily newspapers.” (Click [HERE](#) to access Aline's website)

She has appeared in a number of anthologies and is a regular contributor to [Blunt Moms](#), InCultureParent, and [Mamalode](#). She can't decide if she is more excited by being [quoted in the New York Times](#) or the Wine Connection shop opening up across the street. In 2016 she is joining the team of bloggers at HappyGoKL.com and, like many New Yorkers, getting her first driver's license now that she is middle age.”

● **Geraldine (Thuillier) Lerch** (*LSY: 5eme in 1986*) was widely quoted in the French media in July, when she wrote an open letter explaining why she and her family were leaving France and moving to Canada, because of the great difficulty of doing business as a small entrepreneur in France:
« Cette lettre signée par un couple de propriétaires de maisons d'hôtes dans le Vaucluse a connu un succès retentissant sur Facebook. Près de 100 000 partages et 130 000 likes. La tribune de Géraldine Lerch-Thuillier publiée le dimanche 5 juillet a connu un retentissement spectaculaire. Dans ces quelques lignes, la propriétaire de maisons d'hôtes dans le Vaucluse explique son intention de quitter la France pour s'installer en famille au Canada. "La France, c'en est trop, écrit-elle. La coupe est pleine nous te quittons pour un pays où la réussite est bien vue, où la création est encouragée." Un coup de gueule qui en rappelle d'autres et qui a

• **Nathalie Dembele** (*LSY: Terminale in 1991*) "had a longtime desire to be in business for herself, yet her search was hastened by a downturn in the economy. About eight years ago, Dembele moved to Mount Kisco while working in the Human Resources Department for PepsiCo in Somers. Soon after she was out of a job, laid off just as the recession was hitting full Dembele, who was born in Paris but moved to New York with her parents as a child, was always interested in fashion. Several years ago she established her own knitwear company while working various full-time jobs Since April 2013, Dembele has transitioned into the role of independent stylist. She sells jewelry -- Dembele describes the merchandise as "affordable luxury"--and accessories, such as scarves, wallets and handbags What Dembele also likes about company [where she works] is that it encourages its partners to engage to be socially responsible. As many as eight times a month she engages in outings for charity Dembele, who still has family in France but hasn't been back since 2006, said she feels fortunate that she did not follow her first inclination to move out of Mount Kisco once she lost her job at PepsiCo. Her son enjoys going to West Patent Elementary School and on weekends he often accompanies her on her outings to see customers or go to shows."

I have also just celebrated my 10 years at Movado Group International here in Bienne, Switzerland and currently working there as Sales and Operations Director. Anyone I know from the days of the LFNY is welcome to come for a visit in the new house we moved into one year ago."

- **Manuel da Graca** wrote: "My wife and I visited NYC in December 2013 and we met with **Vivian Holtzman Connolly ['91]**. I had not seen her since 1982 but it was as if we had spent time chatting the month before. It was a great reunion, since I had left NYC with no notice due to family affairs. We truly enjoyed being around her family and mother. This was somewhat of a healing session for me as I was able to express how I felt leaving my friends without knowing. Vivian is a wonderful person and I am happy to be re-connected. In 2014, I obtained an MBA ... adult learning is no joke but worth it :-)

My wife and I are moving to Lisbon, Portugal in Q1 of 2015. I no longer work for the French Embassy Trade Office - Ubifrance, and will offer consulting services for global small/medium businesses with innovative services or solutions seeking to enter the U.S. market. In the U.S. I work with leading retail, telecom and health care companies interested in testing, integrating and acquiring. Details pertaining to this new endeavor should be up and running once established in Europe. My wife just finished a motivational book: *TOMORROW CAN'T WAIT - An Inspirational Book Offering Persistence for a Lifetime*" ([Click here](#) to see Allana's book)

I've lived a couple of lives since I left the Lycee and have been mostly based in the UK for the last decade, though I did manage to escape to Turkey for a year to teach sailing and windsurfing, which I know sounds improbable in light of the fact I almost always had a note to get out of gym class. I think I am almost impossible to track as I go by my married name of Lindgren – though I am no longer married. I moved back to the States in late 2003 and live with my Architect boyfriend Javier. We live in Brooklyn and have a mad red mutt called Diego. I now work for a small foresight think tank and am finally finishing my undergraduate degree in Environmental Studies at Hunter College. I am in touch with **Moya** and am going to visit her in London this summer to meet Harry. I am also in touch with **Sophie Laffont** and **Sandrine Lago** who are both here in NY and doing brilliantly. I was also briefly in touch with **Astrid** and somehow managed to misplace her email. - **Marc Jacquand** writes: "I am now with the United Nations' Special Unit for Microfinance in New York. After graduating from the Lycée in 1991, I went back to France to study at HEC until '96, then moved back to NY where I worked on Crédit Lyonnais' equity trading floor before going back to school to get a Masters in International Affairs at Columbia University. After a brief - one year - stint in DC for a microfinance organization, I moved back to NY in September 01 to join the UN. Traveling is good, but I'm trying to keep it to a minimum now that I am married, to Rhona, whom I met back at Crédit Lyonnais. Hope all is well for class of '91."

● **Alejandro Muñoz-Ledo** writes: "Hello from Mexico! Actually, I left the Lycée in late 1985, but was unable to complete my 'premier cycle' (12ème-5ème). I am now living in Mexico City, working for a major commercial bank (Bancomext), married and have two baby boys. I remember my classmates quite well, and have actually tried to contact them (unsuccessfully I might add!) The only person I kept in touch with for a while was Carine Salvy, who was working in New York for Paribas until about 2 years ago. Anyway, I am glad to be back in touch with the Lycée community, and not at all surprised to find Françoise Plusquellec as class secretary! Finally, I was really glad to read Marina Treves' note. Congratulations to her! By the way, will there be (or has there been) a class reunion? Is there one in the making?"

● **Marcel Agueros** writes: « I am currently between my 2nd and 3rd years of graduate school at the University of Washington pursuing a PhD in astronomy, and am spending two months in Japan as part of an NSF summer program. My plan to go to every World Cup from 1994 on is still on track, as I managed to get a ticket (at less than face value!) for the Brazil-Turkey semifinal. »

● **Karine (Leonhard) Beers** writes : « I attended the Lycee Francais from 1986 to 1989. I would have graduated with my class in 1991, but moved back to France and went to the Lycee International de Saint Germain en Laye my senior year. I went to law school at Nanterre in Paris and graduated William & Mary in Virginia with a LLM and currently work in a law firm in North Carolina whose main practice is criminal law. I would appreciate hearing from those that I knew back then and in particular Corinne Hascouet '91 with whom I would pass notes in English class!»

● **Marina Treves** writes: I live in Paris where I am the Assistant Coordinator of the International Diabetes Federation Congress (taking place in Paris, August 2003.) Being a diabetic myself for 15 years, I have finally been able to integrate an association with an important mission for all people affected with this illness -kind of a dream come true for the past several years. Working for a cause, helping people who are suffering and fighting for the rights of people with diabetes is truly a reward. I am not married yet and have no children, but let's take one thing at a time! Would like to hear from my classmates, wherever they are and if they remember me!»

● **Pamela (Guiraud) Darondeau** nous écrit : « Voici quelques nouvelles de la petite Pamela Guiraud (j'ai eu mon bac en 1991, mais j'ai quitté NY en 1986). Je me suis

mariée en 1997 avec un charmant garçon qui s'appelle Hervé Darondeau. Nous avons la chance d'avoir 2 beaux enfants: Alexis, né en janvier 1999 et Perrine, née en juillet 2001. Nous habitons le 11ème arrondissement à Paris. J'ai deux frères : François Guiraud '87 qui travaille chez Lehman Brothers à Londres et Laurent Guiraud '96 qui fait des études de Droit à Paris.»

- **Moyra Dawson** writes: "I came across the 'Find a Classmate' website one night when I was on call at the hospital during a little lull in between screaming children and frantic parents and was a little suspicious...but no! What a good thing it was to join. I left NYC 10 years ago this October for the sunny shores of England and the LFNY gang seemed to scatter to the four winds. Now I know that you all still exist! When I left I went to med school in Bristol, UK, and graduated in '97. I am now specializing in Paediatrics (UK spelling!) and infectious diseases. I married an English boy - should I say chap? -, Jonathan, in July 2000 in Italy and am now living in the countryside in Leicestershire. A far cry from NYC! Would love to hear from the Promotion de '91."
