● **Akli Hadid** (*LSY: 7eme in 1994*) shared a poem he wrote in *Franglais* entitled "Sam walks à l'avant." He wrote: "I'm back with a poem which is actually a univocalism/monovocalisme in A/en A in Franglais as usual. Basically means I wrote the poem only using the vowel A. It's a short poem. Hope it can make it to the newsletter. It hasn't been published anywhere else and was written specifically with an LFNY audience in mind." (Click [HERE](#) to read the poem)

● **Paul Ziadé** (*LSY: 1ere in 2000*) wrote: "After 2 years spent in Lebanon, I'm back in Paris for a couple of months. ● **Olivia Wildenstein** (*LSY: Terminale in 2001*): "grew up in New York City, the daughter of a French father with a great sense of humor, and a Swedish mother whom she speaks to at least three times a day. She chose Brown University to complete her undergraduate studies and earned a bachelor's in comparative literature. After designing jewelry for a few years, Wildenstein traded in her tools for a laptop computer and a very comfortable chair. This line of work made more sense, considering her college degree.

When she's not writing, she's psychoanalyzing everyone she meets (Yes. Everyone), eavesdropping on conversations to gather material for her next book, baking up a storm (that she actually eats), going to the gym (because she eats), and attempting not to be late at her children's school (like she is 4 out of 5 mornings, on good weeks).

Wildenstein lives with her husband and three children in Geneva, Switzerland, where she's an active member of the writing community.

● **Paul Ziadé** (*LSY: 1ere in 2000*) shared this with us: “When my parents told me we'd have to leave NYC, it came as a shock. I was madly in love with a LFNY student, but had no choice but to follow my parents. The year following NYC was horrible in more ways than one could imagine. But salvation came in 2002 when I started my Master in International Business & Management in Paris. I spent four years having fun and learning all about team management as the Student Association President. Despite a promising career, in 2007 I became bored and decided to travel the world. One year was enough to open my eyes and make me understand what I wanted to do with the rest of my life: Become a change maker and a doer! I started my humanitarian work in Cambodia in 2008, then spent almost 4 years in Haiti following the earthquake, met my future wife there, went to Kenya for less than 12 months, got married, and finally settled in Lebanon, with my wife and son, and launched U2GUIDE.COM. It is an ethical travel website for travellers to book local activities listed by local guides, worldwide, and dedicating, amongst other things, 50% of net profit to local charities in visited countries. Wishing all of you all the very best life has to offer.” (Click [HERE](#) to access Paul's website)

David has spoken about health and sustainability issues and business solutions to crowds at over twenty university campuses and over a dozen state legislatures. David holds a Master of Science degree in nonprofit management from The New School and a Bachelor of Political Science degree from American University.” (<http://newhope360.com/author/david-benzaquen>)

● **Rym Khene** (*LSY: 7eme in 1994*) « Dans ses travaux de recherche et sa pratique de la photographie, Rym Khene interroge la mémoire des villes et les traces évidentes et secrètes des vies humaines qui les peuplent. Elle tente de capturer la façon dont les espaces physiques et imaginaires dialoguent et la manière dont s’inscrit dans leurs murs le récit des ruptures des villes en mutation. Alger et Dakar ont été les premiers témoins de ce travail sur les résonances des villes africaines. D’autres projets sont en préparation. Rym vit actuellement à Paris où elle travaille sur une thèse de Doctorat en Littérature portant sur la poétique de l’espace urbain dans un contexte de violence. » (<http://www.rymkhene.com/about/>)

● **Chloe Temtchine** (*LSY: 4eme in 1997*) : “To paraphrase what Amy Carlberg wrote in Bust Magazine, Chloe Temtchine, with supermodel looks, intoxicating sex appeal, and a sultry, soulful voice, would not look out of place on the cover of Rolling Stone Magazine, with the possible exception of the breathing tubes that she

must use, even while performing. Chloe Temtchine was rushed to the emergency room due to congestive righthart failure on March 4, 2013. After having been misdiagnosed for five years by some of the most respected and acclaimed medical practitioners and institutions in NYC, she was finally diagnosed with severe Pulmonary Hypertension (PH). Misdiagnosis did not simply alter her life; it shook it to its core. However, the real story is not what happened as a result of the diagnosis; it's what happened afterwards.

Just over a year after being handed a devastating diagnosis, Chloe debuted her song, "Be Brave," which she wrote shortly after being released from the critical care unit, about making the choice to live despite life's challenges Ms. Temtchine was recently featured in the Huffington Post; she has performed on "Late Night with David Letterman," she is the voice behind the national commercial celebrating the 100th anniversary of American Express, and she has been featured on NY-1 news, with "Where in The Truck is Chloe"; she has been on The Nate Berkus Show (NBC). Additionally, she has performed on "Fearless Music" (FOX 5); her song "Brand New Day" has been featured on "The Early Morning Show" (CNN), and she has had songs placed in various TV series and films. Some of her songs are in French and Spanish, as she is tri-lingual."

I discovered my life’s calling while my best friend in France was going through a difficult first pregnancyAs I was looking for pregnancy groups that she could join for additional support, I came across the website of a French certified Baby Planner. A cartoon light bulb went off above my head. Things had never seemed so obvious or clear. I became a student of the International Academy of Baby Planner Professionals (IABPP) within hours and am now a busy certified Baby Planner, Eco-Consultant and Domestic Helper Placement Expert. While starting my business as a Baby Planner I used my experience as a trained Baby Planner, along with that of being a volunteer for two domestic helper organizations in Hong Kong for several years, to provide my clients with the best domestic helper placement services this city has to offer! My varied expertise has allowed me to work with hundreds of parents from many different countries and backgrounds. I am a certified Holistic Health Practitioner (AADP), a certified Baby Planner (IABPP) and an Eco-Consultant (IMI).” (<http://www.maidforyou.com.hk/about/>)

● **Akli Hadid** shared this with us: "It's been over 20 years since I left the lycée. I was in 8eme and 7eme between 1992 and 1994 in Mr. Poupon's class (8eme) and Mr. Denisot's class (7eme). I was in touch with some of my former classmates through Facebook but three-dimensional communication makes me really anxious so I decided I did not belong to the world of Facebook and lost touch with most of my former classmates since.

Anyway, since leaving the lycée I lived in Mozambique for a year, Colombia for a year, Turkey for 4 years, and Algeria for 2 years where I obtained my bac L. I went on to study LEA (basically English and Spanish) at the University of Nanterre and got my *licence* there. I then did an MA in Peace Studies at Kyung Hee University in Seoul, Korea and decided to settle in Korea with my fiancée. I'm in the final stages of my Ph.D. in Korean Studies, and have taught English at several venues in Korea.

Currently I am the Foreign Affairs assistant coordinator at a local university, taking care of exchange students' needs. After completing my Ph.D. I hope I can pursue a career in academia. I publish in academic journals and am a guest columnist at the Korea Times and the Diplomat Magazine [[click here](#)] and a frequent guest on the Korean radio. I specialize in language education in Korea and multiculturalism so most of my publications are ethnographies of language teachers, language learners and immigrant populations in Korea. My fiancée is a Korean diplomat, so who knows, we might end up in the City and send our kids to the lycée!"

Sauveplane-Stirling's time abroad took him all over Bogota, from the mountainous edges of the city's sprawling skyline to the cavernous mining sites where he investigated how Colombia's Legal Stability Contract allows the government to regulate labour, environment and human rights. 'I wanted to look at how the contracts are being used and relate their use to corporate social responsibility,' he explained, adding that being on-the-ground gave him direct insight into the international implications of

- [Chloë Temtchine](#) sings *Let it burn* at the Hiro Ballroom

----- From December 2009 AALFNy Newsletter -----

● "Singer [Chloë Temtchine](#) has lived a life beyond her young years, traveling the world and searching for solace amid countless exotic lands and cultures. Each experience has brought her one step closer to her emergence as a soulful new voice on the music scene.....Equally comfortable with R&B/soul production as she is playing her acoustic guitar, Temtchine has delivered a rich collection of original songs that manages to evoke the vocal stylings of Beyoncé even as it suggests the quiet storytelling of John Mayer or Paula Cole.....She grew up in New York to parents with diverse cultural backgrounds, got mixed up with the wrong crowd, and left home in her early teens to see if the world had a better path to offer. From her escapades on the streets of Spanish Harlem to singing in cafes on the sidewalks of Barcelona, Chloë's gypsy road was paved with real-life experiences that resonate with all of us, and she set those events and those feelings to music.....Upon her return to America, she gained a deep appreciation of 70's soul, R&B, hip-hop and world music at the prestigious Berklee College of Music, then set off to pursue her musical career and hone her sound, which blends classic soul music with timeless pop....."

● "On August 4, 2006, **Jean-Marc Donics**, his twin brother [**Alexander Donics**] and two of their best friends embarked on a trip of a lifetime. They attempted to climb Mt. Kilimanjaro, Africa's highest mountain at 19,340 feet. With a year having passed since their graduation, the four young men decided to make true on their college promise and climb the mountain once they had secured jobs and settled into life after college. More than an adventure, they wanted to push their minds and bodies to the limit as they attempted to reach heights few people ever reach. Months of planning and training made Jean-Marc very confident that they would reach the summit." (From *World Education and Development Fund*, worldfund.org)
